Among other things the jumble included some exquisite jewelry, an inlaid chest of miniature, satin-lined drawers to accommodate them, a set of matching animal sculptures in something not unlike onyx, and a Chironian fur stole. "Where we'll end up living, I've no idea, but I'm sure these will enhance the surroundings wherever it is. Don't you think the silver is delightful? Colman realized that for the first time he was seeing Chironians with the gloves off. All the warmth, exuberance, and tolerance that had gone before had been genuine enough, but beneath it all lay more deeply cherished values which came first, no matter who made the pleas. On that, there could be no concessions..Re turned back, shaking his head despairingly, and looked at Kath again. Now that Swley had moved from the bar, her party manner had given way to something more intimate. Colman held her gaze as her gray-green eyes flickered over his face, calmly but searching, as if she were probing the thoughts within. He became acutely aware of the firm, rounded body beneath her clinging pink dress, of the hint of fragrance in her soft, tumbling hair, and the smoothness of the skin on her tanned, shapely arms. Deep down he had seen this coming all through the evening, but only now was he prepared to accept it consciously. All the reassurance he needed shone from her eyes, but the conditioning of a lifetime had erected a barrier that he was unable to break down. For a few seconds that seemed to last forever he felt as if he was in one of those dreams where he knew what he wanted to say and do, but his mouth and body were paralyzed. As long as Curtis remains uneasy, the dog will stay on.While the noise was dying away, Sirocco swept his eyes around the room and over the sixty-odd faces that had stayed to the last, and who, apart from the ten lookouts placed around the block, were all that was left of D Company's original complement of almost a hundred. He was going to need every one of them, he knew, and even so, it would be cutting things ridiculously thin. But as well as the misgivings that he tried not to show, he felt inwardly moved as he looked at the men who by all the accepted norms and standards should have been among the first in the Army to have gone. But apart from the SD units, D Company's record was second to none. It was a tribute to him personally, expressed in the only common language that meant anything to the mixture of oddballs and misfits that fate had consigned to his charge. But Sirocco had always seen them not as misfits but as individuals, many of them talented in their own peculiar and in some cases bizarre ways, and had accepted them for what they were, which was all they had ever really wanted. But the term misfit was a relative one, he had come to realize. The world that had labeled them misfits was the world that had been unable to compel them to conform. Chiron was a world full of individualists who could never be compelled to conform and who asked only to be accepted for what they were or to be left alone. Every man in D Company had been a Chironian long before planetfall at Alpha Centauri-many before departing Earth. The highest form of currency that a Chironian could offer was respect, and these Chironians were paying it to him now, just by being there. Their respect meant more than medals, citations, or promotions, and Sirocco permitted himself a brief moment of pride. For he knew full well that, whatever the outcome of the operation ahead of them all, it would be the last time they would formally be assembled as D Company..Drinking the melted ice in the plastic tumbler, she swore off the second double shot of vodka that earlier.she'd grown all but oblivious of the sun. "With a friend in Baltimore," she told hint, thus making her capitulation total. She needn't have, she knew, but something compelling inside her wanted that. She knew also that it was Stern's way of forcing her to admit it to herself. The terms were now understood..Then came the question of what to do with the rest of the evening. "Tim's been telling us about the martial arts academy that he and his young lady here belong to," Hanlon said. "It sounds like quite a place. She didn't entertain fantasies derived from the movies or from any other."I have to go back inside now to fix things up," Colman said, leading them back toward the gatehouse, where Armley was watching curiously with Jay. "Mike," Colman said to him as they stopped by the door. "Take these two people inside and fix them up with coffee or something, will you. Jay, wait inside with Veronica. I have to get back in with Bret, but I'll be back in a few minutes. Don't worry. It'll be okay.". "Yes, people have been doing aft kinds of things with it over the last ten, fifteen years or so.".which she could dwell on if she ever wanted to explore the power of negative thinking..check.. "Does he expect you tonight?" Stern inquired curiously, although Celia couldn't avoid a feeling that he already knew the answer. She shook her head. "Where are you supposed to be?"
